

Keypads

The range of compatible LCD keypads is used to programme all features, incorporating high-visibility menu driven LCD displays, proximity tags & a flush mount design. Premier Keypads emphasise aesthetic quality without compromising performance or reliability.

Premier LCD/LCDP

Remote Keypads with standard 32 character LCD display. Incorporates 2 DP or EOL zones & 1 programmable. LCDP features built-in proximity tag reader.

Premier LCDL/LCDLP

All the features of the LCD/LCDP plus large 32 character LCD display & speaker driver output for programmable volume control. LCDLP features built-in proximity tag reader.

Premier Elite LCDLP

Large blue LCD screen with touchtone backlit keys. Built-in proximity tag reader.

Premier Elite Flush & Surface Mount

Flush and surface mount keypad options. Large blue LCD screen with touchtone backlit keys. Built-in proximity tag reader. Polished chrome, Satin chrome, Diamond White, Polished Brass, Gunmetal and Diamond Black finishes available.

Proximity Tag

Proximity tag for use with LCDP & LCDLP remote keypads.

Expanders

A complete range of expansion modules provides the superior design flexibility and increased system options. Featuring wired and wireless options, Premier Elite expanders are ideal for commercial-grade security systems or demanding installations where a custom system is a requirement. All Premier Elite expanders are compatible with Premier Elite control panels; a selection is also compatible with Premier Series control panels.

Premier Elite 8XP

Remote 8 Zone Expander providing an additional 8 programmable DP or EOL zones, 8 programmable outputs, 1 auxiliary input & a speaker driver output with programmable volume control.

Premier Elite OP16

Remote Output expander provides an additional 16 programmable outputs, each rated at 100mA negative applied.

Premier Elite RM8

Relay Module providing 8 additional relay switch options.

Premier Elite 60iXD

Expansion module providing two iD⁺ loops each supporting 30 iD⁺ biscuits.

Power Supplies

Energy efficient switch mode power supplies with universal voltage input for use around the world. Available as stand-alone or with integrated zone expansion, Premier Elite power supplies are high quality, reliable units suitable for commercial and industrial use.

Premier Elite PSU200

Energy efficient 2.5Amp switch mode power supply.

Premier Elite PSU200XP

Energy efficient 2.5Amp switch mode power supply with Premier Elite 8XP expander.

Software & Peripherals

Wintex Software

Texecom's user-friendly Windows™ based software, designed for use with the Premier Elite Series of control panels, provides complete upload/download and systems diagnostics for total control and flexibility.

Windows is a registered trademark of Microsoft Corporation

Montex Software

Software based alarm receiver interface for connecting with Premier Elite Com IP alarm signalling equipment. Supports fast format, contact ID and SIA communication protocols. Manages received polling information for each monitored site.

Maintex Software

Remote maintenance software compatible with Premier Elite 48 control panels. Automates remote maintenance procedure and provides database storage of maintenance information.

Premier Elite USB-Modem

Designed specifically for use with Wintex UDL software & a PC to allow trouble free uploading/downloading with Premier Series control panels.

Texbase Software

Texbase is an alarm management software package designed for use in conjunction with the Premier Elite Com IP and Montex software, ideally suited to installers who wish to individually monitor their installed security systems for specific alarm signals. Texbase is event selectable, features include printable reports, detailed account history and alarm status emailing.

Ricochet Monitor Software

Provides greater diagnostics and configuration control over wireless system setup than ever before. Delivers device status and attribute selection with real-time graphical representation of mesh-network wireless systems.

Access Control

Premier Elite access control products provide integrated access control options for Texecom proximity tags or standard 26 bit weigand readers for alternative technologies.

Premier Elite iProx

Provides support for Texecom proximity tags & other standard 26 bit weigand readers. Tags can be learnt & stored locally with the controller in stand-alone mode, allowing the unit to be used as a single door access controller.

Premier Elite External iProx Coil

When used in conjunction with the Premier Elite iProx & Texecom Proximity Tags allows the user to disarm the system externally. The unit can also be used as a single door access controller, by using it as a stand alone module with the Premier Elite iProx.
